

Roofs

Product description

Model Classic

A complete roof includes a lot more than just the roofing sheets. A combination of lead-ins, water removal systems, ladders, roof bridges and snow stops is also needed to make the roof safe and functional. All parts of roof packages manufactured by Ruukki are tested high-quality products that are compatible with one another. Steel roofs have an impressive and elegant appearance. They are watertight, light and durable, which ensures easy installation and use.

Product applications

- detached houses
- terraced houses
- residential multi-storey buildings
- recreational dwelling
- schools, day care centres and other public buildings

Ruukki is a metal expert you can rely on all the way, whenever you need metal based materials, components, systems or total solutions. We constantly develop our product range and operating models to match your needs.

● **Product**

Name	Classic SR35-475C
e-code	CLSTR
Effective width	475 mm
Total width	505 mm
Maximum length	12500 mm
Minimum length	800 mm
Height of joint	32 mm
Thickness	0.50 or 0.60 mm
Sales unit	m ²
Weight/unit	5,19 or 6.20 kg/m ²

● **Material**

Hot galvanized steel sheet SFS-EN 10326
Minimum zinc amount 275g/m²

Coated steel flat products SFS-EN 10169-1
SFS-EN 10169-2

● **Tolerances**

Product SFS-EN 508-1
Material SFS-EN 10143

● **Coatings and colours**

Pural Matt 11, 22, 23, 29, 32, 33, 750,
779, 798, 887
